

NSC Leroy RR2Y **NEW!** 2225 CHU

Plant Characteristics

Highlights

NSC Leroy RR2Y is a super ultra early maturing variety that will be the earliest soybean variety in Western Canada. This is definitely the variety of choice for new soybean growers in Saskatchewan in the black soil zone. This variety has a plant growth structure that's fairly tall and upright.

Key Strengths

- Super ultra early maturing variety - the earliest in Western Canada!
- Great variety for new soybean growers in Saskatchewan in the black soil zone
- Tall and upright plant structure
